

WINCH

WINCH FOR LIFTING PERSONNEL OR MATERIALS

The Globestock WINCH is specifically certified for the lifting of both personnel and materials. It is a personnel winch that may also be used for load lifting.

The anti-run braking mechanism means that, if the winding arm is released during lifting, the winch automatically locks, holding the person / load steady until the handle is rotated again by the operator.

The 1:8.9 gear ratio makes personnel lifting easy, and delivers 50 mm of rope retrieval per rotation.

May be mounted to various anchorages, including the SENTRY Tripod and XTIRPA range.

- **Up to 250 kg MWL**
- **Heavy duty**
- **Anti-run brake**
- **Up to 40 m rope**
- **Galvanised or stainless steel rope**

WINCH fitted to a SENTRY Tripod
